INTRODUCTION

Filmcity launches its latest motion control system specially designed for line slider. This versatile & compact system when added to the slider lets you create **dynamic video and timelapse photography sequences with fluid and precise motorized slides, pans, and tilts.** It centers around the **powerful motor**, which proves **smooth or incremental movements**, and works with most DSLR, mirrorless, and digital cinema cameras. With the controller, you can program **precise camera movements for interviews, establishing shots, and other movements.**

Now add captivating moves in your shots & grab the attention of your audience!!
