## INTRODUCTION

A camera slider consists of rails and some kind of carriage for the camera, right? Well, with the **newest addition** to our line-up, we say otherwise. Proaim proudly launches '**Sway**', a camera slider without actually being a slider. The Proaim Sway is small, yet features a very **well thought-out construction**. It is for **lighter camera setups** with payload up to 3kg / 6.6lbs. It is a **go-to slider** with its **lightweight and super durable design**.

Sway **moves with the camera** and always **stays clear of your frame**. It's a mechanical slider, you can **use the slider anytime and anywhere** without getting dependent on external power, programming and other hurdles, which is always a good thing.

## IN THE BOX

Please inspect the contents of your shipped package to ensure you have received all that is pictured and listed below.

Proaim Sway Slider

## ASSEMBLING YOUR PROAIM SWAY CAMERA SLIDER

- Mount the sway slider on your tripod stand directly with the help of 3/8"-16 mounting thread.

- Attach your fluid head with the sway slider & then mount your camera onto the fluid head.

**NOTE:** You can also direct mount your camera onto the sway slider .

### FRICITION ADJUSTMENT

Both the parts of the slider are held together by a friction adjustment knob, for silky smooth and consistent glides.

- You can adjust the friction with the help of knob. As shown in the picture.

This slider **loves to travel** and will go to places no slider has ever been before. It is **extremely easy to transport** in backpacks or as carry-on luggage.

## **WARRANTY**

We offer a one year warranty for our products from the date of purchase.

We will repair or replace your product, free of charge, in the event of a defect in materials or craftsmanship obtained during normal use or handling based on the user manual. Please note that we will not cover any shipping costs for returning the product to us. If any VAT or import duties are applied to the return, we will also charge these costs to the customer.

The warranty does not include, by the way of example, damage caused by products that we do not supply or from mishandling in transit, accident, misuse, neglect, lack of care of the product, or service by anyone other than our company.

We are not liable for incidental or consequential damages resulting from the use of the unit or occurring due to any breach of this warranty.

Replacement parts of the product will be provided at nominal cost (covering the cost price of the replacement parts only) to the customers after the Warranty Period has expired. We will cover the complete cost of sending replacement parts within the warranty period. After that, Nominal cost of the product & Actual shipping cost will be charged.

Do not send the unit to us without first getting a response and getting the approval to send back the item.

In case of any kind of dissatisfaction, we urge you to **Contact us** immediately and we shall do our Best to help you out. For any other assistance you can reach us via email.
