INTRODUCTION

Proaim introduces its new high-density anodized aluminium swivel Angle plate that offers the possibility to fix and secure the tripod head of your choice in seven different positions of inclination up to a 90 degree angle. The high grade locking levers ensure secure tilted angle shots. Even when the locking device is opened accidentally, a safety device ensures the plate does not fold completely, but stops automatically in the next of the seven locking positions.

IN THE BOX

Please inspect the contents of your shipped package to ensure you have received all that is pictured and listed below.
